How does the institution provide an opportunity to groom leadership qualities

This institution promotes the students to develop their leadership qualities through organizing various guest lectures by wellknown personalities from society. Our students also frequently participated in personality and leadership development programme organised by Chhatra Sansad, MIT Pune . Our Student council also provide better platform to develop leadership qualities throughout the year.

Different regular and annual activities of National Service Scheme develop leadership qualities in students through group leaders and nominees. To develop management and leadership dualities our institutes frequently organizes various medical, diagnostic camps and health awareness programmes for the benefit of society at large in hospital as well as in remote areas where medical facilities are rarely available. Our institute organize inter collegiate debate and other competition for the sake of development of leadership qualities in students.

Institution promote the students to participate in various social, cultural and intellectual activities organised by NGO's, Municipal Corporation, and other reputed organizations throughout the year for their leadership development. This institution organizes various National seminars, research workshops, and continuous medical education programs on the basis of student's active participation, which provide the necessary platform to students for leadership and personality development
